Corporate Profile

GSC is a family owned and professionally managed company led by engineers and a history of four generations of working experience in glass since 1948. It has been into architectural glass processing since 1978 and is technically, the strongest company in India with many pioneering firsts to its credit.

GSC is the industry leader in the field of glass supply, design and solutions in India, providing a one stop shop for all glass needs, with a wide range of glass processing facilities and manufacturing complete range of stainless steel fittings, spiders and connectors for glass. This is strongly backed by some of the best equipment in the world and engineering design team specializing in glass including bolted structural glazing.

From pre processing to processing of glass and manufacturing of stainless steel fittings, spiders and connectors, aluminium windows, GSC has the widest range of sophisticated machines and equipments from some of the best manufacturers in the world. A short list can be seen in subsequent pages.

Quality is a key driver in GSC. To ensure high quality GSC has a well-equipped test lab and design facility to ensure the most stringent quality standards accepted worldwide. GSC's glass, hardware and engineering design and services have many satisfied customers in India, Belgium, UK, Ireland, Luxembourg, France, Holland, Russia and many parts of the world.

GSC has two fully equipped manufacturing units located at Greater Noida and Mumbai employing over 900 people and has several offices and resident representatives in various parts of the globe.

At GSC we are committed to providing our customers with the best products and services and cater to all their glass processing needs. Given our technological depth and breadth, we have developed an approach to consistently deliver solutions that maximize value for our customers. Combining over 60 years experience and dedication to research and development creates an environment where GSC is able to provide the customers with technically superior products and services.

GSC caters to various segments such as Architectural, Automotive, Domestic Appliances, Solar Collectors, Photovoltaic, Acrylic Moulds, Luminaries, Furniture, Displays and Industrial. Our friendly and professional staff is always at your service to fully satisfy all your glass related needs.

Group Companies

GSC Trutuf is perhaps the most well known glass brands in India. The company is the first architectural glass processor in the country and also the most advanced. It has the fastest & widest range of technically superior setup for all stages of glass processing.

GSC Windows offers Aluminium window systems from reputed partners such as sapa (Belgium) -. The division offers all ranges of aluminium thermal break windows and aluminium non-thermal break windows to provide a complete solution for the building envelope.

GSC Alusystems with the best aluminum fabrication systems and state of the art infrastructure provides a perfect partner for your dream project. Combined with project management under GSC group, it is a one stop shop for your building envelope.

Product & Services

- Tempered Glass
- Heat Strengthened Glass
- Heat Soaked Glass
- Ceramic Printed Glass
- Laminated Glass
- Security Glass
- Decorated Glass
- Multiple glass combinations

- Aluminum Windows
- Curtain Walling
- Structural Glazing
- ACP Cladding
- Spider Glazing
- Skylights
- Atrium Solutions
- Glass Canopies
- Walk Ways

- Aluminum Thermal Break Windows (SAPA)
- Aluminum Non-Thermal Break Windows (SAPA)

Infrastructure & Global Presence

- ❖ Manufacturing units at Greater Noida & Mumbai
- ❖ 12 acres of industrial land
- ❖ 3,00,000 sq.ft. covered area
- ❖ Over 900 people
- ❖ 5400 KVA power & 2200 KVA gensets
- ❖ Fully owned subsidiary in Belgium
- ❖ Design offices in Greater Noida & Belgium
- ❖ Resident representatives' in various cities

Glass Processing Facilities Available

WIDEST RANGE OF PROCESSING FACILITIES

- CNC Cutting - 4
- CNC Grinding - 3
- CNC Drilling & Cutouts - 2
- Ceramic Printing - 3
- Frosting & Etching
- Tempering Lines - 6
- Laminating Lines - 3
- Double Glazing - 3
- Spiders & Patch Fittings
- Special Steel Constructions

TOTAL SOLUTIONS IN GLASS

Please see detailed list below

1.0 GLASS CUTTING	MAKE AND ORIGIN	G.Noida	Mumbai
1.1 CNC Glass cutting line with auto loader, transfer and breakout table max size 3000x6000mm	Bystronic, Switzerland	1	0
1.2 CNC Glass cutting line with auto loader, transfer and breakout table max size 2700x3700mm	Bystronic, Switzerland	1	2
1.3 Glass cutting tables with loading and air floatation	Self fabricated	2	2

2.0	GLASS EDGE GRINDING and POLISHING			
2.1	Double edging line (two double edger machines) with automatic transfer conveyor, suitable for flat and arris edge grinding and polishing with 44 grinding and polishing wheels max size 3000x4500mm	Benteler, Germany	1	1
2.2	High speed CNC edge grinding for small sizes (max 1000mm dia) shaped glasses like automobile windows with fully automatic loading, grinding and unloading stations.	Bystronic, Switzerland	0	1
2.3	Double edger set (two double edger machines) with automatic transfer table, suitable for small rectangular glasses (1200x1200 max) with 8 grinding wheels and corner dubbing.	Schiatti, Italy	1	0
2.4	CNC machining centre for edge grinding and polishing of shaped or profiled glasses. Also does holes and cutouts.	Bimatech, Italy	1	1
2.5	Straight edging machines for flat and arris polished edges with 10 grinding and polishing heads	Schiatti, Italy	1	2
2.6	Straight edging machines for grinding and polished 'C' edges with 2-3 grinding and polishing heads	Schiatti, Italy	3	3
2.7	Straight edge beveling machine with 7 grinding and polishing heads	Schiatti, Italy	1	0
2.8	Corner grinding for small glasses	Self fabricated	4	4
2.9	Belt grinders for grinding with abrasive belts	Self fabricated	2	2
3.0	DRILLING AND CUTOUTS			
3.1	Automatic CNC double ended drilling and milling machine for glass. Fully programmable and integrated to double edger 2.1 above	Forvet, Italy	1	1
3.2	Waterjet cutting for making intricate cutouts and holes in glass	KMT, Germany	1	0
3.3	Waterjet cutting for making intricate cutouts and holes in glass	Foshan, China	1	0
3.4	Big double ended drill with deep throat for large and thick glasses	Self fabricated	1	1
3.5	Small double ended drill for small glasses	Self fabricated	4	6
4.0	WASHING & DRYING			
4.1	Vertical washer and dryer with multistage brushing, washing and drying	Self fabricated	2	1
4.2	Horizontal washer and dryer with multistage brushing, washing and drying	Self fabricated	4	2

5.0 CERAMIC FRITTING				
5.1	Direct on glass multi colored digital printing machine using special ceramic colors suitable for printing complex designs or images for sizes upto 2700x3700	Diptech, Israel	1	0
5.2	High precision roller coating glass printing machine suitable for solid printing of ceramic frit or enamel on glass upto 1600mm width and any length	Giardina, Italy	1	0
5.3	Large format screen printing semi automatic for glass size upto 2000x3500mm	AG Engineering, Italy	1	0
5.4	Small format screen printing fully automatic loading, positioning, printing and unloading for glass size upto 600x800mm	AG Engineering, Italy	1	0
5.5	Screen making, stretching, enameling, exposing, equipments and accessories	Various	1	0
6.0 TEMPERING				
6.1	Most advanced tempering line capable for processing the most difficult low e glasses for sizes up to 2440x5000 for 3 to 19mm thickness, complete with blowers and accessories.	Glasstech, USA	1	1
6.2	Flat glass tempering line for sizes upto 2500x3660 for 5 to 19mm thickness and 2000 x 2500 for 4mm complete with blowers and accessories.	self fabricated with technology from Grenzebach, Germany	0	1
6.3	Flat glass tempering line for sizes upto 2100x3660 for 4 to 19mm thickness complete with blowers and accessories.	self fabricated with technology from Grenzebach, Germany	1	0
6.4	Flat cum Bent Glass tempering line for sizes upto 1600x3000 and thickness 4 to 19mm for flat and 1000x1600 and thickness 4 to 19mm for bent glass, complete with blowers and accessories	self fabricated with technology from Grenzebach, Germany	1	0
6.5	Large Flat Glass tempering line for sizes upto 3000x6000 and	North glass	1	0

	thickness of 4 to 19mm complete with blowers and accessories	China		
6.6	Large Flat cum Bent Glass tempering line for sizes upto 3500x5000 and thickness 4 to 19mm for flat and 2500x3500 and thickness 5 to 19mm for bent glass, complete with blowers and accessories	North glass China	0	1
6.7	Flat cum Bent Glass tempering line for sizes upto 1000x1500 and thickness 3 to 19mm for flat and 800x100 and thickness 3 to 19mm for bent glass, complete with blowers and accessories suitable for automotive side lites tempering.	North glass China	0	1
6.8	Vertical pit type bent tempering plant with die pressing bent tempered glass of sizes upto 1500x3000 suitable for coach back lites	Self fabricated	1	0
7.0	HEAT SOAK OVEN			
	Oven for heat soaking of tempered glass for temperature 290 degrees C, PLC programmed for time temperature and data recording for historical verification of size 2000x3600mm	Engineers electric, India	1	0
	Oven for heat soaking of tempered glass for temperature 290 degrees C, PLC programmed for time temperature and data recording for historical verification of size 3000x6000mm	Engineers electric, India	1	0
8.0	LAMINATION			
8.1	Lamination line for glass and PVB lamination, fully automatic conveyors, multistage washing, assembly and layup room with humidity and temperature controls, pressing, de-airing and heating for primary adhesion of sandwich. Max size 3000x6000mm	Self fabricated	1	0
8.2	Lamination line for glass and PVB lamination, fully automatic conveyors, multistage washing, assembly and layup room with humidity and temperature controls, pressing, de-airing and heating for primary adhesion of sandwich. Max size 2000x4000mm	Self fabricated	1	0
8.3	High pressure autoclave for final curing and adhesion of sandwich with hot air circulation, vacuum and pressure complete with compressor and accessories. Max size 2000x3210mm	Scholz, Germany	1	0
8.4	High pressure autoclave for final curing and adhesion of sandwich with hot air circulation, vacuum and pressure complete with compressor and accessories. Max size	Changzhao, China	1	0

	2000x3210mm			
8.5	Glass bending furnaces for gravity bending and annealing of glass pairs with moulds for lamination. Computerized controlled and multiple zone heating Max size 2000x3660mm	Self fabricated	3	0
8.6	Laminated glass de-airing and vacuum pressing and heating with vacuum bags suitable for bent glasses	Goldpeak, China	1	0
9.0	DOUBLE GLAZING LINES			
9.1	Fully automatic Robotic double glazing line for making double and triple glazed glasses complete with washing, assembling, pressing and secondary sealing with Robot.	Lenhardt (Bystronics), Germany	1	0
9.2	Fully automatic double glazing line for making double and triple glazed glasses complete with washing, assembling, pressing.	Lenhardt (Bystronics), Germany	0	1
9.3	Fully automatic double glazing line for making double and triple glazed glasses complete with washing, assembling, pressing.	Peter Lisec, Austria	1	0
9.4	Sealant pump with high pressure mixing, metering and dousing of two part structural silicon sealant or poly sulphide sealant.	Peter Lisec, Austria	1	1
9.5	Sealant pump with high pressure mixing, metering and dousing of two part structural silicon sealant or poly sulphide sealant.	Reinhardt, Germany	1	1
9.6	Spacer bender and assembler for cutting and bending the spacer to size and shape with automatic desiccant filling.	Rujkan, Norway	1	1
10.0	HARDWARE FOR GLASS			
10.1	Steel Cutting			
	Band Saw – automatic	ITL, Indian	1	0
	Plasma Cutting	Technology Promoters, India	1	0
10.2	Steel Machining			
	CNC Turning Centres	Parishudh , Indian	5	0
	Vertical Machining Centres	Mysore Kirloskar, India	1	0
	Vertical Machining & Tapping Centres	Fanuc, Japan	2	0
	Lathes	Various	5	0

	Milling Machines	Various	3	0
10.3	Steel Finishing and Polishing			
	Steel Finishing and Polishing Machine	Boere, Nederlands	1	0
	Steel Grinding Machines	Powermaster	3	0
	Electro Polishing Machine	Self fabricated	1	0
	Surface Grinders	Various	2	0
10.4	Steel Welding			
	TIG Welding	Technology Promoters	1	0
	Arc Welding	ESAB, India	2	0
	MIG Welding	Advani Oerlikon, Indian	1	0
10.5	Other Machines			
	NC Spark Erosion Machine	Electronica, India	1	0
11.0	TESTING FACILITIES & EQUIPMENTS			
	Impact Test with electro-magnet (Ball Drop Test)	Self fabricated	1	1
	Pendulum test (Impact test)	Self fabricated	1	1
	Bending Strength	Self fabricated	1	0
	Light Stability	Self fabricated	1	0
	Light Transmission (Lux Meter & Incandescent Lamp)	Self fabricated	1	1
	Pummel Test	Self fabricated	1	0
	Polarized light	Self fabricated	1	1
	Projector for Distortion and Vision Test	Self fabricated	1	0
	Optical Distortion Test	Self fabricated	1	0
	Heating Oven	Narang Scientific, India	1	0
	Deep Freezer	Engineers electric, India	1	0
	Boil Test m/c	Engineers electric, India	1	0
	Humidity Test m/c	Engineers electric, India	1	0
	Radiation test m/c	Self fabricated	1	0
	Grazing Angle Surface Polarimeter	Strainoptic, USA	1	1
	Corrugation Measuring Mechanism with Depth Gauge	Self fabricated	1	1

	Miscellaneous- micrometer, vernier caliper, measuring tap, filler gauge etc.	Various	Various	Various
	Profile Projector	Dynascan, India	1	0
	Universal Testing Machine	FIE, India	1	0
	Salt Bath Testing Machine	Labin Scientific, India	1	0
	Hardness Tester	SEU, India	1	0
12.0	HANDLING, ENERGY AND OTHERS			
	Gantries, EOT, pallet trucks etc	Various	Various	Various
	Generators 250 to 1250 KVA various capacity	Cummins	3000kva	500 kva
	Power transformers 3000KVA complete with 33 KV substation	Alstom	1	1
	UPS	Liebert	160kva	30kva
	Compressors	Elgi/Atlas copco	7	4
